For the purpose of this Schedule the expression "the Estate" is to be understood as meaning the whole or portion, as the case may be, passing to each person of all the property of the deceased situate outside the Colony as well as the property of the deceased within the Colony.

- (a.) But when the whole or any portion of such Estate passes to the husband or wife of the deceased absolutely, no Estate Duty is payable on such whole or portion as the case may be.
- (b.) When the whole or any portion of such Estate passes to the husband or wife of the deceased, otherwise than absolutely, or a lawful issue or ancestor of the deceased, one-half only of such rate is payable on such whole or portion as the case may be, of the property chargeable with the duty.
- (c.) When the whole or any portion of such Estate passes to any other person than the husband, wife, lawful issue, ancestor, or brother or sister, or the lawful issue of such brother or sister of the deceased, one-and-a-half times such rate is payable on such whole or portion, as the case may be, of the property chargeable with the duty.

Note.—The whole or portion of the "Estate" for the purposes of the rate of duty will not in all cases be the same as the whole or portion of the property chargeable with the duty, as in some cases all or some of the property of the deceased outside the Colony will not form part of the property chargeable with duty.

BANKRUPTCY ORDINANCE No. 8 OF 1907.—Continued.

PETITIONING CREDITORS' COSTS.—Continued

The petitioning creditor's Solicitor may be allowed all proper charges at the rate specified in the scale for all work necessarily or usually done in the interest of the creditors generally for the protection or benefit of the estate between the presentation of the petition and the date of the receiving order, if the receiver or trustee shall certify that the work done was necessary or useful. Such certificate may be given by the signature of the receiver or trustee to a memorandum containing such certificate at the foot of the bill of costs.

In exceptional cases where the petitioning creditor's Solicitor has from the presentation of the petition rendered special services in the interest of the creditors generally, and such services shall have assisted to preserve or increase the assets, or otherwise been of substantial advantage to the estate, all proper charges for such services at the rate specified in the scale may be allowed upon a certificate signed by the receiver or trustee to that effect which may be given by a memorandum containing such certificate at the foot of the bill of costs.

When the receiver employs the petitioning creditor's Solicitor or the debtor's or other Solicitor to take any steps for the protection or benefit of the estate or in other matters not included in the foregoing scale, the costs of the work done under such employment in the absence of any special agreement with the receiver, may be allowed.

Where the petition is opposed costs may be allowed in addition for necessary matters, such allowance shall be made in conformity with the scale as nearly as may be of costs in the Supreme Court.

<p><i>Asphalt.</i>—The Pitch or Asphalt deposit at La Brea continues to be a fruitful source of revenue. The so-called “Pitch Lake” covering an area of 114 acres has been leased to the Trinidad Asphalt Co., since 1st January, 1888. In 1887 the revenue from Asphalt was £5,113, in 1888 the first year of the Concession it bounded up to £17,188, and during the year 1913, including Export dues and Royalty it amounted to £76,202.</p> <p>Several private Companies interested in manjak, are exploiting in different Districts in the Island.</p> <p><i>Mineral Oils.</i>—The development of the Oilfields is progressing satisfactorily. Three large and wealthy Companies, besides several smaller ones, are busily engaged in prospecting and boring for oil, and so far the results are decidedly encouraging.</p> <p>During the financial year 1913–14 15,564,977 Imperial gallons of Crude Oil were exported as compared with 3,052,696 Imperial gallons in 1912–13, and it is confidently anticipated that 1914–15 will shew a much larger exportation.</p> <p>A considerable quantity of Oil is also consumed locally—either as Oil Fuel for the Sugar Factories or, after being refined, as Gasolene or Kerosene.</p> <p><i>Stone Quarries.</i>—Several Quarries yield limestone, the principal ones being situated to the East of Port-of-Spain, at Pointe Gourde, and at Carrera and Gasparillo Islands.</p> <p>The San Fernando hill also contains a couple of working Quarries, but the yield being chiefly gravel does not come up to the standard of those mentioned above.</p>	None.	No return.—The principal fishing Stations are :—Carenage (S. Pierre and L’Ance Coco) and Corbeau Town supplying Port-of-Spain, and San Fernando supplying Naparima. A small colony of Italian fishermen from the Mediterranean carry on a trawling business.	Grouper, King fish, Mackerel, Salmon, Red fish, Cavally, Mullet, Prawns, etc., etc.—Quantity unknown.
